

Regional Development Agency Senec - Pezinok Slovak-Georgian Business Forum

“Doing Business in Georgia”

June 14, 2019 we had an opportunity to be a part of SK - GE Business Forum that took place in Bratislava. This forum titled "Doing Business in Georgia" was a final activity of our project “Young Unemployment Towards Entrepreneurship” (YUTE).

EU - Georgia Business Council (EUGBC) organized the Business Forum in cooperation with Ministry of Foreign Affairs of Georgia, Georgian Embassies in Slovakia and Austria, Slovak Chamber of Commerce and Industry, Georgian Chamber of Commerce and Industry (GCCCI), the local agency "Enterprise in Georgia" and Slovak-Georgian Chamber of Commerce that is simultaneously one of the partners of YUTE project.

The overall aim of the project titled YUTE lasting 20-months was providing support and training of young potential entrepreneurs in areas of tourism, bioproduction or craft production. In order to reach the objectives, the Center for Entrepreneurship support located in Tbilisi was established. It serves young people who want to develop their entrepreneurial skills in the long run. For this reason, the Business Forum seemed like the best opportunity to bring in 8 young potential entrepreneurs all the way from Georgia to Slovakia in order to network, ensure the transfer of experience and get to know more about doing business. We believe that this

experience helped to pave the way for future cooperation in the sector of business.

The business forum was followed by the B2B meetings, where all the entrepreneurs from different sectors had an opportunity to meet people who are relevant for their business activities as well as the young entrepreneurs were given an opportunity to engage in meaningful discussions with more experienced entrepreneurs.

Representatives of more than 80 Slovak, Austrian, Polish, Czech and Georgian companies participated in the business forum. They were mainly from the following sectors - Free Industrial Zone, Banks, Transportation and Logistics, Construction, Energy, Tourism, Agriculture and Business Consulting.

Project YUTE is financially supported by SlovakAid.
