### **Regional Development Agency Senec – Pezinok continues to provide assistance to Georgia**

During the last decade, RDA Senec-Pezinok with its vast international cooperation became one of key players and the catalyst of transfer for experiences from transition period to countries of Western Balkans and Eastern Partnership.

Since 2015, Agency cooperates actively with Georgia, supporting the Ministry of Labour, Social Affairs and Family of the Slovak republic as well as the Central Office of Labour, Social Affairs and Family of the Slovak republic, the Ministry of Economy of the Hungary, and the Central Labour Office of the Czech Republic. The RDA SP as well as previously mentioned state institutions provide assistance in establishing and building of capacities for Public Employment Service of Georgia in the framework of the EU twinning project “**Capacity Building of the Employment Support Services (ESS) in Georgia**“.

Within this year, RDA Senec-Pezinok assisted in professional planning and organization of four study visits of Georgian professionals – colleagues from the State Agency for Social Services (SSA), the Ministry of Labour, Health and Social Affairs of Georgia (MoLHSA). Out of these four study visits, three were part of twinning project focusing on provision of employment services.

The overall aim of the fourth study visit, financed via program of official development aid of the Slovak Republic – CETIR, was the creation of possibilities for Georgian colleagues, coming from two state institutions, either determining the state policy in the area of social affairs, family and employment or providing its execution - MoLHSA and SSA Georgia – for obtaining the practical experiences, knowledge, skills. This know-how was based on Slovak transition experience within two key areas: social services and employment with emphasis on most vulnerable target groups. The activities undertaken helped the Georgian colleagues in their regular work within social area as well as paved the path to plan further initiatives for strengthening of cooperation between Slovakia and Georgia.

RDA Senec-Pezinok provided financial assistance from own resources in order to renovate public entrance of SSA premises, located on Javakhashvili Str. 51 in Tbilisi – serving not only the employees of SSA, but to general public seeking their assistance.

This renovation was undertaken in close cooperation with SSA in order to improve the environment for work with SSA clients – job seekers and the employers as well for those in need of social assistance. The back entrance provides also wheelchair access for disabled. Now the SSA staff and clients have premises fulfilling norms and creating decent conditions for work and provision of services.

Therefore, RDA Senec-Pezinok considers this investment as effective and efficient one and is planning further cooperation and assistance within the area of social inclusion and employment for upcoming years.

RDA Senec-Pezinok highly appreciates not only the professional cooperation developed, but also the friendly attitude and hospitality of Georgian colleagues. This is the factor why is it ready to assist further to Georgia in the framework of its own means, as well as financial means provided by Slovak Official Development Aid and the EU funds.

Because our valued Georgian colleagues and all citizens of this extremely beautiful and hospitable country simple deserve this!
